### Ground, Weather & Light

There will be instances where starts are delayed due to late arrivals, playing conditions unreasonable due to weather or light. Meaning that it will not be possible to either commence at the scheduled start time or having started to be able to complete the game. The HJL would like to see as many games as possible completed each season where it is safe to do so.

Please consider the following measures:

Up until the 1st week of May and from 2nd week of August all games should be scheduled to start at 5.30pm. Where possible the League will arrange local fixtures during these periods. If it not possible, for any reason, to start at 5.30pm then matches should be reduced by 2 overs per side for every 15 minutes lost. It is dependant on match managers to take into account all conditions pertaining on the day to ensure games do not end up being played in unacceptable light. This should include ensuring overs in both innings (20 overs) should be bowled within 75mins
